

ZXP Series 7 Card Printers

Fast and Reliable Card Printing with Photo-like Images

Print outstanding, high-quality cards using the latest in card-printing technology with Zebra's ZXP Series 7™ card printer. Get fast and reliable performance along with exceptional value with printer's lower total cost of ownership. Time after time, it prints sharp vivid cards with precise color control.

The ZXP Series 7 printer has an innovative design. It automatically adjusts to the thickness of the card, and ribbon loading is easy. With color-coded guides and a clear LCD control panel, it's simple for anyone to use. Locking mechanisms protect the printer and media, and software provides further security by tracking and restricting activities as required.

ZXP Series 7 Pro Model*

Complete Large Print Jobs Quickly

The ZXP Series 7 Pro is specifically designed for service bureaus and governments to quickly issue large quantities of secure identification cards with photo-quality images. It offers larger card hoppers, synchronized supplies and cards and allows you to produce more cards in less time. And, it's less expensive to own than any other printer in its category.

Superior Performance

Card After Card

Built to meet your demanding business environment, the ZXP Series 7 printer features a robust design and premium out-of-the-box performance for a wide range of environments and applications. It generates near-photographic print quality and color depth using photo-print technology, along with edge-to-edge printing. Add lamination to ensure card security and lengthen the life of images.

High Productivity

Print More Cards Faster

Reduce wait time with fast print speeds, including click-to-drop and batch printing. The ZXP Series 7 offers the fastest throughput with simultaneous dual-sided lamination and the ability to process up to three jobs at the same time (encoding, printing and laminating simultaneously). Add more speed with ix Series™ ribbons, developed for faster printing.

Get Printing, Keep Printing

Easy Setup and Low Maintenance

Easily integrate and maintain your ZXP Series 7 printer with smart features such as simplified ribbon loading and operation, high-capacity media and synchronized ribbon and laminate rolls. Deploy printers quickly with Windows™ drivers, ZMotif™ SDK and networking options.

Performance, Productivity, Adaptability and Cost Efficiency.

For more information, visit www.zebra.com/zxpseries7

Intelligent Adaptability

Tailor for Your Needs – Now and Next

Get the flexibility to add options when you need them. Build your portfolio of card-printing applications and manage your investment at the same time with options including single- or dual-sided printing, numerous encoding and connectivity options such as UHF encoding and 802.11b/g wireless connectivity, an integrated barcode reader, wasteless single- or dual-sided lamination, Zebra™ Duo-Print™ dual-sided printing upgrade kit and a variety of ribbon options.

Software Adaptability and Control

Administrators can customize feature sets and user privileges with advanced security settings. Software developers can use the ZMotif SDK to easily integrate advanced features or write custom print applications. The ZXP Toolbox allows advanced control over the printer, driver and software setup – as well as administration and diagnostics.

Cost Efficiency

Supplies Designed to Minimize Cost-Per-Card

Reduce costs with Zebra True Colours ix Series ribbons and Zebra True Secure i Series laminate. High-capacity ribbons deliver more images per roll and feature an improved formulation for printing high-quality images at higher speeds. Many ribbon types are available in two sizes to meet the needs of every printing task.

Zebra True Secure laminates reduce the risk of counterfeiting and extend the life of your high-security cards. And, the laminate design dramatically reduces waste by eliminating carrier material, backings and liners. Specially designed cartridges make laminate simple to replace.

Both the ribbons and laminates feature intelligent media technology that automatically detects and calibrates the printer.

Zebra Supplies

Make it Easier than Ever to Manage Your Printer

Genuine Zebra™ supplies meet stringent quality standards, and are recommended for optimal printing quality and proper printer performance. The ZXP Series 7 printer is designed to work only with Zebra True Colours™ ix Series™ ribbons and Zebra True Secure™ i Series laminates.

Zebra CardStudio™

Design Cards With Ease

Create sophisticated cards the easy way with Zebra's CardStudio. Whether you're printing a handful of single-side monochrome cards or thousands of double-side cards with MIFARE contactless encoding, full color, specialty security effects or dynamic data, our highly intuitive interface makes you a pro with virtually no technical expertise or training. View cards as you build them with live preview.

Get a head start with a sample card design and edit for your needs, or start with a blank slate. Use design layers for complex builds, add distinctive artwork and connect to virtually any backend database or spreadsheet to integrate dynamic data such as text, photos, 1D and 2D barcodes and more.

Product Warranty

The ZXP Series 7 is warranted against defects in workmanship and materials for a period of 2 (two) years from the date of shipment. For the complete warranty statement, please visit: www.zebra.com/warranty

Recommended Services

The Zebra OneCare Service portfolio of Essential, Select and Premier maximizes the availability and productivity of your devices. Key features include 24/7 technical support, comprehensive coverage, advance replacement and software updates. Optional Visibility Services are available. For more information go to www.zebra.com/zebraonecare

Footnotes

Notes:
*The ZXP Series 7 Pro is not available in APAC.
**Our laminates are also in increments of 750 images per roll.

For optimum print quality and printer performance, use genuine Zebra supplies. Specifications subject to change without notice.
